DIRECTORY

• WATERFORD •

Waterford's Repair Directory

Waterford City & County Council, as part of the Southern Waste Management Plan, is endeavouring to encourage people to reduce consumer consumption by promoting the repair of household items rather than disposing of them, thereby reducing waste generation and associated environmental impacts. Waste Prevention is the main principle of the current Southern Waste Management Plan.

Vivienne Foot was funded to compile a repair directory by Waterford City & County Council under the Local Agenda 21 Environmental Partnership Fund 2015. Lisimore Tidy Towns kindly assisted her with information about their area. Waterford City & County Council does not advocate or endorse any listing. Prior to using any service, please ensure that you are satisfied with the service provider's relevant experience, authorisation and liability cover.
