

ENTERING ON FORESHORE FOR THE PURPOSES OF SITE INVESTIGATION WORKS

Site Investigation Works for the Waterford North Quays public infrastructure and River Suir Pedestrian Bridge development will be undertaken within the River Suir (on the foreshore) between the months of May and August 2017.

The works comprise of 10 number boreholes and a seismic refraction geophysics survey.

The works will be carried out along the line of the proposed bridge site which crosses the river approximately parallel with Barronstrand Street and at locations adjacent to the North Quays between Rice bridge and the eastern end of Frank Cassin Wharf.
