

Re: Proposal to introduce a 5 Axle Ban for Dungarvan

HGV's are currently travelling through the centre of Dungarvan and in particular at night time in order to avoid the numerous roundabouts on the By- Pass.

This is causing unnecessary conflict with pedestrians and other road users, additional noise, environmental emissions and structural damage to the road pavement.

To eliminate this practice it is proposed to introduce a 5 Axle Ban to prohibit heavy good vehicle with 5 or more axles from entering the Town Centre. A permit system will be operated to allow vehicles enter the cordon in exceptional circumstances where necessary.

The attached map shows the proposed extent of the cordon and alternative routes. A similar ban exists in Waterford City and other cities and towns in the Country.

If you wish to make a comment or submission in relation to this proposal you can do so by email to ajacob@waterfordcouncil.ie or by post to the undersigned by 4pm 3rd August, 2018.
