

AN BHFUIL LEISCE ORT É A CHUR SA BHOSCA BRUSCAIR?

Mura nglanann tú suas tar éis do mhadra, cuirtear cosc ar dhaoine eile taitneamh a bhaint as páirceanna, cosáin agus limistéir thaitneamhachta.

Tá sé slán glanadh suas tar éis do mhadra. Mura gcuireann tú i mála agus sa bhosca bruscair é, is féidir **seadáin fás tar éis 10 lá agus is féidir impleachtaí suntasacha sláinte a bheith ag baint leis le himeacht ama**, lena n-áirítear galair thromchúiseacha ar nós salmonella, E. Coli, gaistreintríteas agus tocsacáiríais.

Is minic go gcuireann sé seo isteach ar leanaí óga, ach bíonn tionchar aige ar dhaoine ag gach aon aois.

Is féidir le madraí eile ionfabhtú Parvaivíris a fháil. Is furasta an réiteach é:

cuir i mála agus sa bhosca bruscair é.

Déan teagmháil le d'Údarás Áitiúil le haghaidh tuilleadh eolais.

TOO LAZY TO BIN IT?

If you don't clean up after your dog, you stop others from enjoying parks, walkways and amenity areas.

It is safe to clean up after your dog. If you don't bag it and bin it, **after 10 days a parasite can develop that can result in significant health implications over time**, including serious illness such as salmonella, E. Coli, gastroenteritis and toxocariasis.

Young children are often affected, but it impacts people of all ages.

Other dogs can also become infected with Parvo.

The solution is simple: **bag it and bin it.**
