JUNE 2022

General Environment Enforcement

Environmental Inspectors continue to investigate and monitor illegal waste issues, littering, fly-tipping and illegal signage and issued litter fines where offences are detected. Members of the public are encouraged to contact the local authority to report all incidents of illegal dumping or littering by using the following telephone number: 0818 10 20 20

The following graph shows a comparison of the top categories of CRM cases recorded in the Dungarvan / Lismore area during the period to the end of May in the years 2021 & 2022.

Presentation & Cleansing

Dungarvan:

The central part of the Strandside roundabout has been sown with wildflower seed with the intention of creating a stony wildflower meadow; whilst leaving the perimeter unsown so as not to impact on the overall function of the roundabout. The wildflower meadow areas which have been developed off the Youghal Road and at Strandside are now becoming noticeable and beginning to flourish for the summer months. These areas hold the greatest value for biodiversity for these summer months.

Staff have largely been involved in the summer changeover of the planters throughout Grattan Square where the winter planting has been replaced with summer flowering species which shall flower for the next number of months providing interest and display with the process to be repeated along the quay in the coming weeks. Alongside this the preparation for the summer seasonal bedding displays has been taking place within strategic locations around the town which will be replanted in advance of the June Bank holiday with the remaining ground bedding plants to follow throughout to mid-June.

Environmental Education & Awareness

Waste prevention

Waterford City & County Council are working to encourage the use of reusable cups at cafes in conjunction with 2GoCup. With 22,000 single use cups used every hour in Ireland, we are seeking to get cafes involved in a reuse campaign. The timing is good for a campaign of this nature, with Covid restrictions gone and the recent announcement of the levy on single use cups. We have now received commitment from ten cafes to take part in this initiative ; five cafes along the Greenway and five in Waterford. This will be launched in July, once all ten businesses have received their delivery of 2GoCups. It is hoped that these cafes will then become case studies to encourage other cafes to accept and move towards reusable cups.

Green Flag Programme

Despite a challenging year, sixteen schools have recently been awarded a Green Flag. An online awards ceremony and National Green Flag Raising Day took place on 25th May, with schools encouraged to celebrate their achievement by raising their Green Flag on this day.

Biodiversity

As part of the South East Technological University (*SETU*) Centre for the Advancement of Learning of Maths, Science and Technology (CALMAST) Bealtaine Living Earth Festival, Waterford City & County Council ran two workshops, one for schools and one for families/individuals. The Bealtaine Living Earth Festival celebrates Ireland's rich biodiversity and the country's natural heritage with a particular focus on the South-East.

Climate Change

Waterford City & County Council have been working with a further four schools and the Waterford Teachers Centre to continue the Climate Literacy programme with secondary schools this autumn. The Climate Literacy programme is delivered over a period of ten weeks and is focused on improving climate literacy and fostering behavior change in schools. The course is developed to include teacher training, resources, and lesson plans. The teacher training is designed to equip teachers with the knowledge, attitudes, behaviors, and skills required to effectively and confidently deliver not only this course, but also across their curriculum subject as the course can complement any subject framework that has an environmental strand. After the training the teachers will then be able to deliver the course by his/herself with as many groups of students as they wish. We also took part in a climate change discussion with Waterford's Youth Advisory Climate Council, sitting on the panel and speaking to the youth council on actions taken regarding climate change.

Leave No Trace

As members of Leave No Trace, Waterford City & County Council are supporting the new national public awareness campaign from Leave No Trace Ireland this summer. The "Love This Place" campaign calls on the public to take care and responsibility when outdoors in managing dogs, preventing litter, and ensuring that there are no fires unless on a designated site. It also asks the public to play their part by acting responsibly so that everyone can experience and enjoy outdoor spaces while

helping to protect them from increased pressures this year. The campaign will include social media and radio advertising running throughout June, July, and August.

Litter Awareness

An educational anti-dog fouling resource pack for primary school teachers has been sent to all primary schools in the county. This pack contains lesson plans, worksheets and activities to teach children about the impacts of dog fouling, develop responsible attitudes and behaviours around cleaning up after their pet and allow them to understand the relevance to their own communities. The lessons are primarily aimed at 3rd and 4th class students but can easily be adapted for younger or older pupils.

Community Clean-Ups

Waterford City & County Council facilitates community clean ups throughout the year to clean up litter and illegally dumped waste from approach roads, local beauty spots, beaches and general public areas. We continue to supply bags, gloves and litter pickers to many of the groups taking part, as well as collecting the bags of litter afterwards.

Website

Environmental Information continues to be added to the Environment section of the Waterford City & County Council website which can be found at www.waterfordcouncil.ie
