

Table A6– Population and Status of Residentially Zoned Land in Towns and Villages

Settlement	Env Capacity Available - Wastewater	WWTP Facility	WWTP Capacity	Available PE	Comments - Wastewater Treatment	Water Supply Scheme	Availability of Water - Units	Source Availability	Planned Upgrades	Comments - Water supply
DUNGARVAN AREA										
Dungarvan & Environs	Suggest orderly development where sewers are accessible					Dungarvan	100	sufficient	WSIP	Connection dependent on location and scale of development

Legend and notes.

Limited Virtually all supplies are limited at source and are based on wells. Works would be required to increase availability. Need to Assess individually

Sufficient Need to watch location for pressures, pipe sizes.

Restricted May be possibly to allow individual single house connection - subject to available capacity. These are schemes that have suffered shortages.

None Applies like deficient, borderline supplies.

Available units. 5 - Only Consider single houses for connection

10 - Small scale developments considered, may need system upgrade to accomodate

20 - More availability but needs an assessment or may need infrastructure.
