

Press Release

MapAlerter - Location aware alerts for Waterford City and County

19th November 2015

Waterford City & County Council is a member of the MapAlerter.com network. This means that Waterford Council can now send **FREE** real-time **location aware alerts** to people living and working within the city and county, via SMS Text Message, Email, Social Media and now through the **NEW MapAlerter App**.

Unlike other existing alerts services, MapAlerter ensures that members of the public will only receive alerts that are relevant to their home and work locations.

Waterford City and County Council has become an “Alerter” to keep people informed of various service alerts and notifications as they occur in their locality.

The Council will be issuing the following alerts:

- Water Service Interruptions
- Burst Mains & Boil Water Notifications
- Scheduled Major Road Works & Road Closures
- Flood Alerts
- Major Road Accidents & Incidents
- Bridge Lifts
- Planned Night Work
- Severe Weather
- Planning applications
- Plus many other community alerts (Festivals, Parades, Spraoi, Garda notices etc.)

Registration is FREE and it costs nothing to receive alerts. To register for FREE local alerts or to download the app visit www.mapalerter.com

There are a growing number of Councils using MapAlerter as their corporate communications solution for public subscribers. Other Councils on MapAlerter are Carlow, Wexford, Fingal, Limerick, Roscommon and Cork County Council.
